1. The production goals of the Waggonfabrik Weimar (SAG Transmasch) are as follows for the year 1952:

- a. 40 passenger-and-goods cars, 750 mm gauge. The cars are so constructed that they can be used alternately for passengers or freight. They are heated.
- b. 295 power-driven cars, 750 mm gauge. Cars of similar design were produced in 1951.
- c. 450 refrigerator cars, 1524 mm gauge. These cars were also also in production in 1951.
- d. 400 soft coal cars, gauge not known. These cars have three partitions which are easily removable.

2. From a production schedule of the sister works at Dessau, it appears that through train-coaches (D-Zugwagen), which are now being built at Dessau for the Soviet Union, are also to be manufactured at Weimar. These coaches are very comfortably fitted out.
